Proposed Cross Point Landing

Public Access to Public Water
Prepared by the Committee for Public Access to Public Waters
Edgecomb • Maine
January 2009

Provide signage as to permitted usage, and ramp barrier removable for maintenance and emergency use.

Construct road shoulder to accommodate a minimum of six cars, with minimum two accessible spaces.

Construct walk and ramp to accessible picnic site.

Preliminary design based on available information including a boundary survey, town assessment map, and Google Earth aerial photo. Particulars subject to change upon additional survey information and further reviews.
